Milestone Systems, Inc. Overview						

Milestone Systems is the leading developer of Open Platform IP Video Management software for managing IP network-based video surveillance. The XProtect™ product platform provides users a powerful video surveillance solution that is reliable, scalable from a few cameras to unlimited cameras and servers, yet easy to manage. Milestone who has been in business for 10 years, has developed a true Open Platform Video Management software solution. Unlike other Video Management Systems, the Milestone solution has been developed as an open platform with documented application program interfaces and a software development kit to assist integrators in developing specific solutions for their customers.

With support for the industry's widest multi-vendor compatibility choice in camera hardware and seamless integration with other systems, XProtect provides best-of-breed solutions to "video enable" organizations — reducing costs, optimizing processes, and protecting assets.
