

A photograph of several call center workers wearing headsets and working at computers in a call center environment. The image is slightly blurred, focusing on the workers in the foreground.

PEPPM

The Premier National Technology Bidding and Purchasing Program

"Can save you time and money on ALL your technology purchases!"

K-14 schools and agencies, higher ed., state & local governments and authorities in all US states may use PEPPM contracts for purchasing technology products at low bid discounted, bid protected prices.

PEPPM has over 300 product line and 13 catalog contracts awarded for the PEPPM 2016 bid year

PEPPM is a technology cooperative purchasing program that for the past thirty-four years has helped schools and educational/government agencies buy billions of dollars worth of technology products.

The Central Susquehanna Intermediate Unit (CSIU) solicits bids for popular lines of technology products using a bid process that satisfies all Pennsylvania and most other states legal bid requirements for K-14 schools and agencies.

Buyers eligible to purchase through PEPPM include K-14 schools and agencies, and (with vendor approval) four-year colleges and universities, local, county and state governments, authorities and other non-profits.

All of the top brand computers, networking and telecommunications equipment, printers and copiers have been awarded to over 145 different vendors. Brands like Xerox, Apple, Promethean, Cisco, Lightspeed and HP have contracts awarded to the manufacturer or one of their resellers.

In addition to the product line awards, PEPPM catalog contracts are available offering buyers an array of more than 1,000 bid protected technology related brands in the areas of:

- Audio Visual Products
- General Hardware & Software
- Refurbished Computers & Parts
- Remanufactured Laser Toner & Ink Cartridges

Recently, MPS contracts were awarded to Canon, HP, Lexmark and Xerox.

With all PEPPM contracts, buyers enjoy complete bid protection backed by PEPPM's terms and conditions. You avoid the time and expense of bidding yourself and our awarded vendors promise to give you the lowest prices they will offer in your state.

Schools and agencies that use PEPPM contracts also enjoy the value-added services provided only through PEPPM, such as contract price verifications, purchase order archiving, vendor contract compliance verification, vendor interventions, and quarterly reporting.

With PEPPM you can maximize your technology budget and minimize your administrative time
