

Vendor Contacts and Ordering Instructions

To assure PEPPM bid protection, all PEPPM orders must be faxed to PEPPM at **800-636-3779**, emailed to orders@peppm.org or placed online through Epylon eCommerce. In the body of the purchase order, please include the following language: "As per PEPPM".

Product Line: Gatekeeper Systems, Inc., Mobile Digital Video Products and Accessories

Introduction

Total Safety, Security and Management Solutions for Mobile Markets

Gatekeeper provides scalable, end-to-end, hi-definition safety and security solutions for mobile applications in school buses, transit buses, police vehicles, transport vehicles, military aircraft, coast guard patrol vessels, and on law enforcement officers. The integrated, high-resolution video, voice and mapping for extreme mobile applications provides customers with an effective tool to increase passenger safety, protect drivers, and manage fleet operations.

The products provide a 360-degree view inside and outside vehicles. Each system integrates hi-definition video with GPS location technology for real time vehicle location, along with time, date and telematics data. All data is recorded to a military standard digital recording system, located inside the vehicle. Cameras transmit hi-definition video, in day or night conditions, collecting evidence that includes license plate information of stop arm violators. Gatekeeper wireless devices provide real time connectivity, streaming video, and vehicle tracking. Its video management software can be used as a desktop application for managing basic incidents or the enterprise software can be used to stream live video from any vehicle anywhere, anytime.
