Product Line: Audio Enhancement

Introduction

Audio Enhancement not only specializes in Classroom Amplification, we invented the concept. We were the first to introduce Infrared transmission and hold the only patent on the use in the classroom. We have since developed an XD (Dect) System to help with large, and outdoor learning spaces, as well as a SAFE System, and EPIC Intercom Paging and Bells System, that all utilize the classroom sound amplification system. We are experts in the design, installation, and servicing of classroom audio enhancement systems that help teachers make an impact in the lives of students. For inquiries please contact, Cheryl Burckhard, 800-383-9362, cheryl.burckhard@AudioEnhancement.com.
