To assure PEPPM bid protection, all PEPPM orders must be faxed to PEPPM at **800-636-3779**, emailed to orders@peppm.org or placed online through Epylon eCommerce. In the body of the purchase order, please include the following language: "As per PEPPM".

Product Line: PayIt – Digital Government Platform (web and mobile applications—including payments)

Introduction

PayIt's mission is to simplify government. Through a modern, digital approach, PayIt is able to deliver industry-leading e-payment services partnered with an innovative citizen experience that sets the new standard of revenue collection for government agencies.

PayIt delivers on this mission with our industry-leading government transaction platform to enable a modern, personalized experience for the customer with the latest, mobile-first, cloud-based, fully secure technology solution for our partners.

Through the years, PayIt has continually delivered successful transaction/payment solutions that showcase its passion for innovation and government while meeting the citizen right where they are—online, mobile applications, office visits (POS), phone (IVR) and so much more. Citizens in every state of the US transact with PayIt.

PayIt's sole focus is government clients. All solutions are developed for government, not modified to fit government. PayIt processes millions of transactions per year and works with jurisdictions all over the country.

The PayIt leadership team is the perfect mix of industry leaders in both private-sector and government. We bring with us extensive experience in working with top brands in the world as well as a long-history of working in government with members of our team previously holding cabinet level positions within state governments.

PayIt has chosen to deploy our expertise to help communities, cities, counties and states innovate and benefit their citizens via our patent-pending Digital Government Platform for government transactions and payments processing.

Our approach to this market has earned us a variety of national awards and recognition, including:

Value-Added PayIt Solutions

PayIt's value-added Digital Government solutions are configurable on the only patent pending, enterprise-grade, platform focused exclusively on government transactions. With our existing platform and rapid deployment methodologies, we custom configure and launch multiple services, in addition to the ePayments solutions described in the previous section. All value-added solutions are native mobile and web apps available for citizens and our government partners in a matter of weeks, not months or years.

The Digital Government solutions provide an easy to navigate, citizen friendly experience that each agency can configure and deploy based on their needs. PayIt supports hundreds of government services at the state and local area and are your true trusted innovation partner. These solutions and the transaction fees would be added and negotiated with each individual agency.

PayIt's applications / services for State Agencies and Local Government are cloud-based, highly secure, fully managed by PayIt under a software-as-a-service (SaaS) agreement. Clients have sought PayIt's unique offering for bringing together various government services into one platform, delivered with a streamlined approach.
